

Dear Students and Parents,

Welcome to our new adventure of Online learning!!! Although there are many platforms for this, the majority of our teachers at Colorado ISD will be using Google Classroom. If your student is taking College classes they may be using other formats and have been using them all year.

For some of your students, they may be using it in class already and are familiar with it. Others will find this is new territory so please be patient with teachers and your students. Please refrain from criticism as we are learning to be in an environment other than our regular classroom.

Students,

You should be looking for invites to your teacher's classrooms if you do not have a classroom already. It is your responsibility to begin looking for assignments in these classes. Your first assignment in each classroom should be a Parent Request Survey that needs to be filled out!

Parents,

The first assignment for each classroom should be the Parent Request Survey. This form will allow you to send your email address to your student's teacher and then they will add you as a Guardian Participant. This will allow you the ability to stay up with your student's assignments, and it allows you to see what the teacher is assigning, due dates, homework, reports, quizzes and tests.

If you and your student have any questions, please contact the teacher directly through Google Classroom. You may also contact the campus office if you need immediate assistance.

We are aware that not all students have access to the internet or a device that they can efficiently do their assignments. We have upped our power on our internet access points and you are welcome to use any of our parking lots to access the internet. If your student(s) needs a device to do their assignments, please contact your campus office and they will make arrangements for each family to check out one device.

Please remember, this is uncharted territory. Please use patience, courtesy, and respect as we may encounter mistakes and issues along the way. Let us all use this time to experience personal growth for ourselves, our students, and our school family.
